COOK BOOK
**Vacuum Method:** Measure fresh cold water into the lower bowl. Place on heat. Place filter in upper bowl. Add vacuum grind coffee. When water boils, reduce heat. Insert upper bowl. Let most of water rise to upper bowl. Stir thoroughly. In 1 to 3 minutes remove from heat. When brew returns to lower bowl, remove upper bowl.

**Drip Method:** Preheat pot by rinsing in very hot water. Measure drip grind coffee into filter section. Measure fresh boiling water into upper container. Cover. When dripping is completed, remove upper section, stir brew.

**Percolator Method:** Measure fresh cold water into the percolator. Place on heat until water boils. Remove from heat. Measure regular grind coffee into basket. Insert basket, cover; return to heat, percolate slowly 6 to 8 minutes. Remove basket.

**Cocoa**

- 4 tablespoons cocoa
- 4 tablespoons sugar
- 1 pinch of salt
- 1 cup cold water
- 3 cups whole milk, or 1 1/2 cups evaporated milk diluted with 1 1/2 cups water
- 1 teaspoon vanilla extract (optional)

**TEA**

1. Use a clean teapot; heat it by filling with very hot water.
2. Bring fresh cold water to a full, rolling boil.
3. Empty water from teapot.
4. Put tea in pot, using 1 measuring teaspoon of tea or 1 tea bag to 1 measuring cup of water.
5. Add measured boiling water.
6. Let brew 3 to 5 minutes.

**Instant Beverages**

There are several excellent brands of instant coffee, tea, and cocoa available. Find the one you like; follow package directions for amounts. If the finished beverage is not strong enough for your taste, experiment until you arrive at a proportion that suits you. Write it on a card; attach it to door of cabinet where beverages are kept.

**Iced Fruit Drinks**

The new frozen citrus fruit juice concentrates—orange, lemon, lime, and tangerine—are easy to use and delightfully flavorful as a base for frosty fruit drinks. Canned fruit juices are excellent also.

**Chocolate-Banana Milk Shake**

- 1 ripe banana
- 1 cup dairy chocolate milk (also called chocolate drink)
- 1/2 teaspoon vanilla

Mash banana to a pulp. Add chocolate milk and vanilla. Shake well. Or, slice banana into an electric blender, add remaining ingredients, and blend until thick and creamy.

Cover with a damp cloth; let rise in warm place, 80° to 85°, until doubled in bulk (about 1 hour). Punch down; turn out on lightly floured board. Divide dough in half. Shape into 2 loaves; place in greased loaf pans, 8 by 4 by 3 inches. Cover with a damp cloth; let rise in a warm place, 80° to 85°, until center of dough is slightly higher than the edges of the pans. about 1 hour. Meanwhile set oven for hot, 400°. Bake 50 minutes to 1 hour. Remove from pans immediately and cool on a rack.

YEAST BREADS

There's nothing quite like the celestial aroma that floats through the house when homemade bread or rolls are baking! Don't think it's a difficult chore to make bread—it does take time, but it's not hard to do.
POCKETBOOK ROLLS

Prepare White Bread dough. After first rising, divide dough in half. Roll out each half ½-inch thick on a lightly floured board. Cut with 2½-inch round cutter. Crease heavily across center with the dull edge of a knife. Brush lightly with melted shortening. Fold over. Place on greased baking sheet about 1 inch apart. Cover with damp cloth. Place on greased baking sheet with pointed end under; shape like crescents; brush with melted butter or margarine; sprinkle with poppy seeds. Let rise. Bake as for Pocketbook Rolls.

WALNUT TWISTS

Prepare recipe for Scandinavian Coffee Cake. Brush with butter. Sprinkle with brown sugar and cinnamon. Roll up like jelly roll; shape into a ring on greased baking sheet; pinch ends. From the outside, cut through the ring toward center almost all the way through in 1-inch slices. Fan out slices slightly to side. Brush with shortening; cover; let rise about 45 minutes or till double in bulk. Meanwhile set oven for moderate, 375°. Bake 25 to 30 minutes. While warm spread with confectioners’ sugar icing; sprinkle with chopped walnuts.
SOUPS

Soups in cans—soups in packages—frozen soups. The old-fashioned soup kettle has been relegated to the top shelf! There are so many ways to fix these modern varieties of soup—so many ways to vary them in combinations—in ways of serving—in garnishing—that almost no one starts from scratch with a soup bone anymore. Even the exotic soups—French Onion, Vichyssoise, Green Turtle—come ready to heat or chill and serve. But for the gardener, the fisherman, the clam digger, we include some start-from-scratch recipes that are out of this world.

GARNISHES

A pretty or unusual garnish gives a plain bowl of soup a party air. You might like to try:
  Frankfurter “pennies” (thin slices) or crisp bits of bacon on black bean or green pea. Bite-size wheat or rice cereal on tomato.
  Pretzel pieces on cream of celery or cream of chicken.
  Grated lemon peel on Scotch broth.
  Sliced egg or lemon slices on black bean.
  Cut chives on cream of celery.
  Slivered dried apricots on chicken noodle.
  Shredded chipped beef on cream of celery.
  Grated sharp cheese on cream of mushroom.

SOUP COMBINATIONS

Two or more canned soups combined into one offer delicious “new” flavors. For example:

- Cream of Mushroom and Tomato
- Black Bean and Tomato
- Tomato and Clam Chowder
- Tomato and Cream of Celery
- Clam Chowder and Green Pea
- Tomato and Green Pea
- Clam Chowder and Vegetable
- Cream of Celery and Vegetable
- Tomato and Beef Noodle
- Tomato and Onion
- Cream of Mushroom and Onion
- Vegetable and Beef Noodle
- Tomato and Chicken Gumbo
- Vegetable and Chicken Noodle
- Vegetable and Beef Noodle
Don't overlook the pleasures of chilled soup during the hot months of the year. Add a soup can of cold milk slowly to the contents of the can, beat smooth with a rotary egg beater or stir to blend, and chill. Try tomato, green pea, cream of celery, cream of mushroom, or vegetable. Top with a swirl of dairy sour cream and cut chives.

Another cold favorite is “soup on the rocks” or undiluted condensed bouillon poured over ice cubes.

QUICK SCALLOP CHOWDER

1 can (13-ounce) Vichysoisse

1/2 pound sea scallops, fresh or frozen, cut
Cut rhives

SALAD SOUP

Add oil and vinegar. Sprinkle with salt, freshly ground pepper, and monosodium glutamate; mix well. Add tomato juice. Chill at least 3 hours. Remove garlic. Serve with hot cheese crackers.

CAPE COD CLAM CHOWDER

1/4 pound salt pork, diced
4 medium onions, sliced
5 medium potatoes, sliced thin
2 teaspoons salt

Strain clam liquor through cheese cloth; pick over clams, removing bits of shell. Cut away soft parts of clams; save. Chop hard parts. Cook salt pork until golden brown and crisp; remove pork; save. Add onions to pork fat; cook until soft but not brown. Add potatoes, salt, pepper, boiling water, and chopped clams; simmer until potatoes are tender, about 1/2 hour. Hot and quick—that’s the way to cook fish to keep it moist, to keep it flavorful. Fish cooked too long at low temperature becomes dry and tasteless. Nowadays most varieties of fish are available in all parts of the country, thanks to modern methods and rapid refrigerated transportation. Packaged quick-frozen, canned, and fresh varieties make it possible to serve a fish dinner any day of the week.

**Broiled:** Fish fillets, fish steaks or whole fish—like shad or mackerel—are all suitable for broiling.

Small fish such as brook trout may be left whole; larger fish should be split open. Brush fish with melted fat. Season with salt and pepper. Place in a preheated, lightly greased broiler pan lined with foil.

**VARIATIONS**

- **Baked:** Whole fish, steaks, or fillets may be baked. Fillets and steaks may be dipped in salted milk, then in bread crumbs, and baked in a hot oven, 400°-450°. They may also be baked in a sauce. A lower temperature is used for this method (350°-375°).
Poached: This is a method guaranteed to bring out the best of flavor. Today we don’t bother about cloth bags, nor do we drown the fish in quantities of water. Modern skillets are handsome enough to bring right to the table and so we use them for poaching. Add the desired liquid (about \( \frac{1}{2} \) cup water, tomato sauce, etc.) to seasonings in the skillet. (Butter, minced onion, garlic, salt, pepper, lemon juice, etc.).

Add the fish. Top with a circle of foil the same size as the skillet, with a small hole in the center to allow steam to escape. Bring the liquid to a boil; cover skillet. Cook over high heat 5 to 10 minutes or until the fish is easily flaked with a fork—but not dry. Remove cover and foil; serve from skillet.

BROILED FILLETS FLORENTINE

2 packages frozen chopped spinach
\( \frac{1}{4} \) cup minced onion
4 tablespoons melted butter or margarine, divided
2 pounds cod or haddock fillets
2 teaspoons lemon juice
2 cups grated process American cheese (\( \frac{1}{2} \) pound)
\( \frac{1}{2} \) cup milk

Cook spinach as directed on package. Cook onion in 2 tablespoons of the butter or margarine until tender; add to spinach. Pre-heat broiler. Place fish fillets in a greased shallow baking pan; dot with remaining butter; sprinkle with lemon juice. Broil 2 inches below heat (without turning) 8 to 10 minutes or until easily flaked with a fork but still moist. Melt cheese in milk until smooth. Transfer fish to baking dish 12 by 8 by 2 inches. Top with spinach; pour cheese sauce over all. Broil 4 inches below heat until golden. Makes 6 servings.

Pan-Fried: In a skillet, heat just enough fat to cover bottom of pan. Do not let fat smoke. Fry fish quickly over moderate heat, 2 to 3 minutes. Turn carefully. Fry only until golden brown underneath and easily flaked with a fork—another 2 to 3 minutes.

Shallow-Fried: In a deep skillet heat fat 1\( \frac{1}{2} \) inches deep to 370°. Dip fish in milk or buttermilk, then in packaged bread crumbs; immerse in hot fat, fry 3 to 4 minutes. Drain on paper towels.

BROILED SWORDFISH STEAKS

2 swordfish steaks about 1-inch thick (2 pounds)
1 teaspoon monosodium glutamate
Salt and pepper
Melted butter or margarine

Sprinkle surface of fish with monosodium glutamate. Let stand 5 minutes. Sprinkle with salt and pepper. Brush with melted butter. Place on greased broiler rack in broiler, with surface of fish about 2 inches below heat. Broil about 8 minutes on each side, brushing often with melted butter or margarine. Makes 6 servings.

CREAMED SALT FISH

2 cups freshened salt cod or finnan haddie
2 cups medium white sauce
2 hard-cooked eggs, sliced
2 cups boiling water

Soak fish for 1 hour in cold water to cover, changing water
twice. Drain; cover with boiling water; simmer 15 minutes; drain; flake; add to sauce with eggs. Serve with baked potatoes. Makes 4 to 6 servings.

Set oven for hot, 400°. Cover bottom of baking dish with lemon and onion slices. Sprinkle lightly with salt and pepper. Lay fillets on top. Cover. (If pan does not have a cover; use foil.) Bake 20 minutes. Remove cover; combine remaining ingredients; spread over top. Broil 3 inches below heat until browned. Makes 4 to 5 servings.

*Haddock, flounder, cod, or ocean perch.
For most Americans meat is the dinner mainstay. Properly cooked, it lends zest, flavor, and high-quality protein to the menu. Moderate temperatures have been found to be best for all meats, whether roasted or cooked with water. High temperature toughens meat, causes excessive shrinkage, and destroys flavor. Even for broiling, the surface of the meat should be at least 3 inches below the surface of heat.

**HOW TO ROAST**

The modern method of roasting meats at low temperatures does away with spattered ovens, cuts down shrinkage, and gives you more and juicier servings.

1. Sprinkle meat with salt and pepper.
2. Place fat side up on rack in open roaster. (For very lean meats, such as veal, place a piece of pork or beef fat over the top. or use a few strips of bacon or salt pork.)
3. Insert a meat thermometer through the outside fat into thickest part of muscle so point does not rest on fat or bone.
4. Roast in slow oven, 325°. Use this same temperature throughout cooking period. Do not add water, do not sear meat, do not cover pan, do not baste.
5. Remove from oven when meat thermometer registers desired degree of doneness, or follow this time schedule:

**HOW TO BROIL**

Broiling time depends on many things—the thickness of the meat, your preference for rare, medium, or well-done, and the fact that there are so many different makes and models of ranges. Here are some general rules to follow, however:

1. Set regulator at 550° or “broil.”
2. Put meat on broiler rack and place under broiling unit so that top surface of meat is about 3 inches from heat (greater distance for very thick chops or steaks).
3. Broil with door closed if using a gas range; leave door slightly ajar if broiling by electricity.
4. Broil until meat is well browned; season with salt and pepper.
5. Turn and brown other side. Only one turning is necessary.

About ¼ hour before ham is done remove from oven; pour off drippings. Peel off any rind left on ham. Score ham with a sharp knife, making diagonal cuts in both directions. Stud with whole cloves. Spread with any desired glaze. Return to oven to finish baking. Ham slices better if allowed to stand 20 minutes after removing from oven.

COUNTRY-CUBED HAMS

Smithfield or Tennessee-style hams need presoaking and boiling. Remove wrappings. Soak at least 24 hours in cold water to cover; drain. ROAST CHICKEN

Select a roaster weighing 3 to 5 pounds or a capon 4 pounds or more. Allow 7/8 to 3/4 pound per serving ready-to-cook weight. Chill until cooking time.

Stuffing and Trussing: Stuff bird just before roasting. Rub inside with salt, allowing about 1/8 teaspoon salt per pound. Cover with a double thickness of cheesecloth dipped in melted fat. Roast in a preheated oven according to ROAST CHICKEN TIMETABLE. If cloth dries during roasting, moisten with pan drippings or additional melted fat. Bird is done when the meat on the fleshy part of drumstick feels soft when pinched between the fingers. Eggs are wonderful protein food, delicious when properly cooked. They like low temperatures; become tough and unappetizing when cooked at high heat.

Soft-cooked: Have eggs at room temperature; place in glass or enamel saucepan; add cold water to cover tops by at least 1 inch. Cover. Bring to boil rapidly. Remove from heat or, if there are more than 4 eggs, turn heat very low. Let stand 2 to 4 minutes according to degree of softness desired. Cool eggs in cold water a few seconds to stop cooking.

Hard-cooked: As above, but let stand 15 minutes. Cool promptly and thoroughly in cold water.

Baked or Shirred: Set oven for 325°. Break 1 or 2 eggs and slip into greased individual shallow baking dishes. Bake for 12 to 15 minutes, depending upon firmness desired. Serve from baking dishes.

Fried: Heat butter or margarine (1 tablespoon for every 2 eggs) in skillet over low heat. Break egg into saucer; slide off into skillet. Repeat for each egg. Cook over low heat 3 or 4 minutes, spooning hot butter over eggs. Or, cover skillet instead of basting. Remove with pancake turner.
SCRAMBLED

4 eggs
4 tablespoons milk or cream
¼ teaspoon salt, scant
¼ teaspoon pepper
1 tablespoon butter or margarine

Mix eggs, milk, salt and pepper with fork or spoon—mixing thoroughly if a uniform yellow is preferred or mixing slightly if streaks of white and yellow are preferred. Heat fat in 8-inch skillet just hot enough to sizzle drop of water. Pour in egg mixture. Reduce heat promptly. Cook slowly, lifting from the bottom and sides as the mixture thickens. As the cooked mixture is lifted, the thin uncooked part should flow to the bottom. Avoid constant stirring. Cook until eggs are thickened throughout but still moist. 5 to 8 minutes. Makes 2 servings.

POACHED: Bring water in shallow pan to the boiling point—enough to have about two inches of water. Reduce heat to hold temperature at simmering. Break each egg into a saucer; slip egg into water quickly at the surface. Cook 3 to 5 minutes depending on the firmness desired. Remove eggs with slotted pancake turner or spoon; drain. Milk or broth may be used instead of water.

FRENCH OMELET

3 eggs
3 tablespoons water or milk
¾ teaspoon salt
¼ teaspoon pepper, scant
1 tablespoon fat

Mix eggs, water, salt and pepper with fork. Heat fat in 8-inch skillet just hot enough to sizzle a drop of water. Pour in egg mixture. It should set at edges at once. Reduce heat. As the mixture at the edges thickens, draw these portions with the fork toward the center so that the uncooked portions flow to the bottom. Tilt skillet to hasten flow of uncooked eggs. Shake skillet to keep omelet sliding freely. Keep mixture as level as possible. When eggs are set and surface is still moist, increase heat to brown bottom quickly. Carefully loosen edge, fold in half or roll. Makes 2 servings.

CHEESE OMELET

Cool; combine with egg yolks, stirring constantly. Fold in egg whites. Set oven for moderate, 350°. Pour egg mixture into hot buttered 9-inch frying pan. Cook over low heat 3 minutes. Transfer to oven; bake 15 minutes. Omelet is done when an inserted knife comes out clean. Cut across at right angles to handle of pan, being careful not to cut all the way through. Fold carefully from handle to opposite side and serve on hot platter. Makes 4 servings.

CANNED VEGETABLES

Method 1. Drain liquid from can into saucepan; simmer 5 minutes; add vegetable; heat just to boiling. Season with butter or margarine, salt and pepper.

CAKES

A beautiful cake is always a triumph and a delight for the best of cooks. Nowadays we can achieve this so easily with the fine packaged cake mixes and frostings from our grocers’ shelves. But there are still many special occasions when we like to make a cake “by hand” from start to finish, or follow a recipe which has not yet been duplicated in a package. For these times we offer a few favorites.

HIGH ALTITUDE BAKING

Baking at high altitudes may make it necessary to change the proportions of certain ingredients. The chart below will be helpful as a general guide. When two quantities are given, try the lower figure first. If not completely successful, try the higher figure the next time you bake.

Baking Powder: (Decrease for each teaspoon) For 5,000 feet, ½ teaspoon; for 5,000 feet, ⅛ to ¼ teaspoon; for 7,000 feet, ¼ to ½ teaspoon.

Sugar: (Decrease for each cup) For 3,000 feet, no change; for 5,000 feet, usually no change; for 7,000 feet, 1 to 2 tablespoons.

Liquid: (Add for each cup) For 3,000 feet, 1 to 2 tablespoons; for 5,000 feet, 2 to 3 tablespoons; for 7,000 feet, 3 to 4 tablespoons.

The labels of cans or jars of identical size may show a net weight for one product that differs slightly from the net weight on the label of another product due to the difference in the density of the food. An example would be pork and beans (1 pound), blueberries (14 ounces), in the same size can (No. 300).

*SPECIALTIES: Usually a food combination such as macaroni, spaghetti, Spanish-style rice, Mexican-type foods, Chinese foods, tomato aspic, etc.
Outdoor cooking—whether done on a spit barbecue, on an elaborate brick structure, or a simple folding grill—is becoming increasingly popular. The fireplace or grill is usually presided over by dad, who enjoys this fling in the culinary arts, thus providing a restful treat for mother, too. Here are a few of the most popular items for outdoor chefs who prefer to keep the menus simple but satisfying.

- **Making the fire:** Charcoal in lump or briquet form is usually used in backyard cookouts. Start the fire 45 to 60 minutes before you plan to cook.

  A safe, practical fire-starter can be made with paper milk cartons. Cut off the top, make a large hole in the bottom, and fill each carton with charcoal. Lay them on their sides and light with a match. When all the charcoal is covered with gray ash, the fire is ready to use. With tongs or a rake, arrange the coals so that they cover an area a little larger than the food that you are planning to cook.

- **How hot?** If you can hold your hand over the coals at the height you will be cooking only long enough to count "one," the fire is hot. If you can hold it long enough to count to three, slowly, the heat is medium; at five, you have low heat. To get a hotter fire, use bellows to blow the gray ash off the top of the charcoal.
BARBECUE SAUCES

There are two types of barbecue sauces: marinades, in which foods are soaked before cooking; and bastes, sauces brushed or sprinkled on foods while they cook. Marinades are usually thin sauces, well seasoned, and containing lemon juice, wine, or vinegar. Bastes usually contain some oil or fat to keep foods from drying out while cooking. Any marinade can be turned into a basting sauce by adding some oil to it.

**Soy Marinade** (especially good for pork, shellfish and chicken)
1 cup soy sauce or shoyu
1 cup sherry (optional)
1 cup vegetable oil (corn, peanut or sesame)
garlic and/or grated ginger (optional)

**Quick Marinade**
1 1/2 cups lemon juice or vinegar
1/2 teaspoon monosodium glutamate
1/2 teaspoon each, thyme, rosemary and tarragon (or other favorite herb combination)
1 1/2 cups cooking oil

**Spicy Baste**
3/4 cup oil
1 cup wine vinegar
1/4 cup water
1/2 teaspoon monosodium glutamate
4 tablespoons sugar
2 1/2 teaspoons salt
2 tablespoons tabasco
1 teaspoon Worcestershire sauce
Small bay leaf

Mix all ingredients well. Bring to a boil, and keep warm while using. Stir well before each use.

**Tomato Baste**
1/2 cup vegetable oil

1 cup ketchup
2 tablespoons vinegar
2 tablespoons Worcestershire sauce
2 tablespoons sugar
1/2 teaspoon salt
Few grains pepper

Combine all ingredients in saucepan. Simmer 5 minutes. Keep warm while using, and stir well before each use.

**Cheese Baste** (especially good for chicken)
1 cup vegetable oil
1/2 cup crumbled Bleu or Roquefort cheese
1 cup lemon juice
1/2 teaspoon monosodium glutamate
1/2 teaspoon paprika

Salt and pepper

May be stored, well covered, in the refrigerator. Shake or beat well before using.

**JUMBO HAMBURGERS**

2 pounds of ground meat
Grated fresh onion or onion powder
Salt
Pepper

Basting sauce (see above)

Choose a lean cut of Prime or Choice grade beef—top round, sirloin, or boneless rump—and have it ground once. Allow 1/4 pound of beef for each hamburger. Divide the meat, handling it gently, into the number of burgers wanted. Then divide each burger into half and pat each half into rounds about 1 1/2 inches thick. Season one round with salt, black pepper (freshly ground is best), grated fresh onion or onion powder. Top with second round and pinch edges to seal. Brush each side
with basting sauce. Grill about 3 inches from hot coals. For rare hamburgers allow about 5 minutes for first side, turn, and cook about 5 minutes more. Makes 8 servings.

DAD'S STEAK SPECIAL

A steak at least 1½ inches—preferably 2 to 3 inches—thick, cut from Prime or Choice grade beef, is best for outdoor broiling. Choose sirloin, porterhouse, club or tenderloin, allowing ½ pound per serving for boneless cuts and ¾ to 1 pound for boned steaks. If a porterhouse is chosen, have the butcher grind the tail and use it as you would hamburger.

Trim excess fat from steak to prevent drippings from blazing up. Brush each side with barbecue sauce, or melted butter, or margarine, or salad oil, plain or flavored with garlic and a pinch of paprika. Sear steak on both sides close to hot coals. Then raise grill to height of medium heat. Salt and pepper steak after searing. A 2-inch steak, rare, takes about 15 minutes after searing—8 minutes on one side and 7 minutes on the other. To determine if steak is done, make a small incision near the bone. Serve at once.

FATHER'S FAMOUS CHICKEN

Choose ready-to-cook broilers or fryers (not more than 2½ pounds each), allowing ¼ chicken per serving. Have chickens split so that the birds lie flat. Brush with basting sauce (below) or favorite barbecue sauce. Place chickens on grill. skin side up, about 3 inches from medium coals, higher if coals are hot. Grill until lightly brown (about 15 minutes), brushing underside with sauce every few minutes. Turn skin side down and grill about another 10 to 15 minutes, again basting frequently.

FRANKFURTERS SUPERB

A simple, flavorful way to grill franks with basting sauce and cook about 8 inches above hot coals, or 3 inches above medium coals, basting and turning them frequently until browned and hot—about 5 to 10 minutes.

BASTING SAUCE FOR 2 CHICKENS

1/4 cup wine vinegar
1/2 cup fresh lemon juice
1/4 cup oil
Salt and pepper to taste
Any herb seasoning preferred
(tarragon, rosemary, thyme)

Young turkeys, averaging 4 to 5 pounds, can be split and grilled the same way, allowing more time for cooking.
Some variations

*With bacon:* Wrap a slice of bacon spirally around each frankfurter, fastening each end with a toothpick. Grill about 8 to 10 inches above hot coals, turning frequently, until bacon is crisp.

*With cheese and bacon:* Split frankfurters and insert a piece of cheddar-type cheese before wrapping with bacon. Grill as above until cheese has melted and bacon is crisp.

*With relish or sauerkraut:* Split frankfurters and fill with piccalilli or sauerkraut before grilling.

**HAM WITH PINEAPPLE GLAZE**

(This needs a rotisserie)

8- to 10-pound ready-to-eat ham  
1 8-ounce can of crushed pineapple  
1 teaspoon dry mustard  
1 tablespoon prepared mustard  
Juice of 1 lemon  
Dash of salt  
1 cup brown sugar

Select a ready-to-eat boneless picnic or shoulder ham, allowing 1½ pound per serving. Spit ham according to directions for your rotisserie. Barbecue meat, allowing about 10 minutes per pound. Apply glaze about 20 minutes before ham is done.

**Glaze:** Drain syrup from pineapple. Mix the pineapple with mustard, lemon juice, sugar, and salt in a saucepan and heat. Stir until sugar dissolves. Add enough of the pineapple syrup to give the sauce a good brushing consistency. This combination makes about 1½ cups of glaze.

**FISH STEAKS**

Have steaks—salmon, halibut, swordfish—cut 1-inch thick, allowing about ¼ pound per serving. For extra flavor, marinate the steaks in a sauce for several hours before cooking (see p. 54). Brush both sides with oil or basting sauce. Season with salt and pepper if not marinated, and grill steaks over medium hot coals for 10 to 15 minutes, turning once. Twist a fork gently into the fish. When it flakes easily, fish is cooked.

**SKEWER COOKING** (Kabobs)

There are many variations of "kabobs." Almost any food—meat, fish, poultry, vegetables, even fruits—in any combination you like can be skewered for grilling. Here are foods frequently used and a few general directions.

**Meats**

Lean lamb, preferably from leg  
Beef sirloin or other tender cut  
Chicken livers or calf's liver wrapped in bacon  
Lamb kidneys wrapped in bacon  
Frankfurters
Fish
Swordfish
Salmon
Sea scallops
Shrimp
Lobster tails
Other firm-fleshed seafood

Vegetables
Small tomatoes
Mushroom caps
Small white onions
Sweet peppers
Zucchini
Eggplant
Pitted olives
Pineapple chunks or other fruits

Directions:
Cut meats and fish into 1 to 1½ inch cubes. Meats and lean seafood may be marinated for several hours before cooking.
Alternate chunks of meat or fish on skewer with one or more vegetables or fruits, being careful to leave enough room between the pieces so that the heat can reach all sides.
Cook over a hot fire close to coals, turning often. Fish usually needs 5 to 10 minutes, meats about 15 minutes.

Vegetables
Corn: Grilled in its husks, corn is the most popular vegetable for cookouts. To prepare it, strip back the husks without breaking them off, remove the silk, pull the husks back over the ear and tie their ends together. Then soak the prepared corn in cold water for a half hour or more before grilling. Roast over a hot fire 10 to 15 minutes, turning each ear several times.

Onions: Medium-sized yellow onions, roasted in their skins, are also easy and good. Allow about 30 minutes over medium hot coals, turning several times. Test for softness with a fork or skewer. They can be roasted in the same way in the kitchen oven, medium heat, with a pan or foil beneath them to catch any drippings.

Potatoes: White baking potatoes, yams, or sweet potatoes can be buried right in the coals. Allow about 45 minutes or more for baking potatoes, testing them for softness with a fork.
